THE GAME:

Squash is a racquet sport played by two players a four-walled court with a small, hollow rubber ball. This fast-paced game has been described as turbocharged chess — the more skilled a player is, the more strategic the game becomes. Players are also continually challenged mentally and physically.

1. The objective of the game is for players to take turns hitting the ball against the front wall, above the tin and below the out line. The ball may strike the side or back walls at any time, as long as it hits below the out line. A ball that lands on the out line or the line along the top of the tin is considered to be out.

2. After the ball hits the front wall, it is allowed to bounce once on the floor (and any number of times against the side or back walls) before a player must return it.

3. Players may move anywhere around the court but accidental or deliberate obstruction of the other player's movements is forbidden. Players typically return to the centre of the court after making a shot.

4. A match consists of a best 3 out of 5 sets. Each set is played to 11 points. The player who scores 11 points first wins that set except if the score reaches 10-all, when the game continues until one player leads by two points. Either player may score points (PAR – point-a-rally). The server, on winning a rally, scores a point and retains the service; the receiver, on winning a rally, scores a point and becomes the server.

5. Points are awarded if, during the course of play:
   - The receiver fails to strike the ball before it has bounced twice
   - The receiver hits the ball out (either ON or above the outline or on the tin) or misses the front wall.
   - Interference resulting in a stroke, i.e. point to the obstructed player

6. Eye Protection is strongly recommended and will be supplied at the tournament. Some racquets are also available for use, however, we recommend you bring your own. Squash balls are provided.

Note: There are no umpires provided for this tournament. In order for a “let” (which is a re-serve with no point given) or “stroke” (point given) to be awarded it must be called by the player before they strike the ball. We recommend that a let be played unless the opponent is clearly in the way of your shot.
